College of Architecture and Design, New Jersey Institute of Technology, New Jersey, USA

narahara@njit.edu

Deadline for manuscript submissions:
**30 September 2019**

### Message from the Guest Editors

Dear Colleagues,

Computer-aided architectural design (CAAD) has evolved over the last decade due to environmental changes and rapid technological advancement. Since the so-called "super-smart society" is going to become a reality in the near future, CAAD is currently exploring its expanded new roles and approaches. CAAD covers interdisciplinary fields which include natural science, arts and humanities, and social science. We invite your submissions related to but not limited to the keywords below.

- Artificial intelligence and machine learning
- Smart buildings, smart cities
- Virtual, augmented, and mixed reality (VR/AR/MR)
- Digital fabrication and robotics
- Telepresence, collaborative design
- Digital twin
- Generative, algorithmic, and parametric design
- Internet of Things (IoT), Big Data
- Performance-based design
- Interactive and responsive design/environments
- Human–computer interaction
- Computational design education
- Digital conservation, digital heritage
- Building information modeling (BIM)
- Modeling, simulation, and analysis
- Laser scanning, photogrammetry, structure from motion (SfM), point clouds

# Special Issue

## Message from the Editor-in-Chief

*Technologies*, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.
**High visibility:** indexed in Inspec (IET) and in the Emerging Sources Citation Index (ESCI - Web of Science) from Vol. 3.
**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the second half of 2018).
